ANOGENITAL NEOPLASIA IN FOCUS

26 – 27 September, 2025, Belgrade, Serbia

The Serbian Society for Colposcopy and Cervical Pathology is celebrating its 30th anniversary. During this time a number of meetings, lectures and courses have been held, including the IFCPC Colposcopy Course 2004, the European Congress in Colposcopy 2007, as well as the Second ESGO supported Regional Symposium on Cervical Cancer Prevention 2015 and the First EFC approved regional Advanced colposcopy course in 2018.

This meeting is organized together with European Society of Gynaecological Oncology (ESGO) which was following and supporting Serbian society for the last 20 years. Co-organizer is Medical Academy of the Serbian Medical Society, the greatest authority in the medical profession in Serbia.

The main goal of the whole event is to enable gynaecologists who work in the field of prevention to comprehensively review and solve clinical problems in the field entire anogenital system neoplasia.

Faculty will include well known regional and international experts, who will share their knowledge and experience in order to improve prevention and detection of anogenital neoplasia.

We cordially invite you to join this exciting event, which we hope will enrich us all with scientific knowledge, new contacts and warm fellowship.

Prim.dr Nemanja Stojanović
President of Serbian Society for
colposcopy and cervical pathology

Emeritus professor Vesna Kesić
President of the Conference

Educational learning objectives:

- Increasing knowledge and understanding of the pathogenesis of anogenital neoplasia
- Determining the utility of prevention strategies among women at risk for anogenital cancer
- Improving the knowledge and recommended skills for diagnosing and treating cervical neoplasia
- Gaining knowledge on vulvovaginal and anal neoplasia and their management
- Emphasizing the importance of comprehensive management and multidisciplinary approach of clinical problems in anogenital region
- Discussing the practices, challenges and successes in different international communities

Let's work together on improving the quality and introducing the standards of colposcopy in our work.
